MISSOURI DEPARTMENT OF HIGHER EDUCATION

Background

The Coordinating Board for Higher Education was authorized by an amendment to the Missouri Constitution in 1972 and established by statute in the Omnibus State Reorganization Act of 1974.

Board members – one from each of Missouri’s eight congressional districts and one selected at large – are appointed by the governor with the advice and consent of the senate and serve six-year terms.

The Missouri Department of Higher Education, led by the Commissioner of Higher Education, serves as the administrative arm of the Coordinating Board.

The Missouri Department of Higher Education collaborates with stakeholders to deliver a coordinated postsecondary education system that provides accessible, affordable, and innovative education that supports economic growth, enhances civic engagement, and improves the quality of life for all Missourians.

Blueprint for Higher Education

The Coordinating Board for Higher Education is responsible for creating a coordinated plan for higher education in Missouri. Preparing Missourians to Succeed: A Blueprint for Higher Education, focuses on five goals:

Goal 1: Attainment
Missouri will increase the proportion of working-age adults with high quality, affordable postsecondary credentials to 60 percent by 2025.

Goal 2: Affordability
Missouri will rank among the 10 most affordable states in which to obtain a postsecondary degree or certificate by 2025.

Goal 3: Quality
Missouri will produce graduates with high quality postsecondary degrees and certificates that are valuable and relevant to individuals, employers, communities and the state.

Goal 4: Research and Innovation
Missouri will be a top 10 state for investment in academic research by 2025.

Goal 5: Investment, Advocacy and Partnerships
Missouri will promote greater investment in a culture of postsecondary education through increased advocacy and powerful partnerships with education, business, government and communities.

COMMISSIONER:
• Zora Mulligan

COORDINATING BOARD FOR HIGHER EDUCATION:

- Douglas Kennedy, Board Chair, District 8
- Mike Thomson, Vice-Chair, District 6
- Shawn Saale, District 3
- Gwendolyn Grant, District 5

DATA SNAPSHOT

The Missouri Department of Higher Education’s Factbook contains the most recent data available to the department.

SOURCES:

- Integrated Postsecondary Education Data System (IPEDS)
- Enhanced Missouri Student Achievement Study (EMSAS)
- DHE Comprehensive Fee Schedule
- Appropriations data is based on Fall 2017 full-time equivalent enrollment, 2017-2018 degrees and certificates awarded, and FY 2018 appropriations, after expenditure restrictions.

2018 ENROLLMENT

FALL 2018 FTE, PUBLIC UNIVERSITIES

FALL 2018 FTE, PUBLIC COMMUNITY & TECHNICAL COLLEGES

2016-2017 NET PRICE

Net price is the total cost of attendance minus the average amount of awarded federal, state or local government, or institutional grant and scholarship aid.

Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state), books and supplies and the weighted average room and board and other expenses.

Net price is reported for first-time full-time degree- or certificate-seeking undergraduates paying the in-state or in-district tuition rate who were awarded grant or scholarship aid.

Public Universities

Missouri has 10 public universities, one of which is a system that includes four campuses. The institutions include five universities that got their start as regional teachers’ colleges, two historically black institutions, two universities that were initially community colleges, and a state university system that includes four campuses.

The public universities work together through the Council on Public Higher Education (COPHE). COPHE is led by executive director Paul Wagner. The group elects a chair, who serves a two-year term. The current chair of COPHE is Dr. Mun Choi from the University of Missouri. The current vice chair is Dr. John Jasinski from Northwest Missouri State University.

Each of the public universities receives an individual line item appropriation for their operating budget. The UM campuses traditionally have a single line item, although funds were appropriated separately for FY 2018. Performance funding has been appropriated in a single line item to the institutions collectively, and the Office of Administration keeps a spreadsheet with individual allocation amounts. Most of the schools employ contract lobbyists and/or have dedicated government relations staff.

Harris-Stowe State University

History

The institution known today as Harris-Stowe State University began as two separate teachers colleges. One, the first public teachers college west of the Mississippi, was a normal school established by the St. Louis Public School System for white students. This school later became Harris Teachers College. The second, Stowe Teachers College, was founded in 1890 as a normal school for black students. The institutions merged in 1954 as part of the State Board of Education’s efforts to integrate St. Louis’ public schools. The new institution was called Harris Teachers College and was subject to the State Board’s authority. The State Board eventually changed the name to Harris-Stowe College. A 1979 statutory change moved Harris-Stowe from being subject to the State Board of Education’s authority to the relatively new Coordinating Board for Higher Education.

Harris-Stowe’s degree offerings were limited to elementary and middle school educator preparation for the first hundred years of the school’s history. In 1993, SB 153 authorized the college to expand its mission to include applied professional disciplines, including business administration (with options including accounting, management information systems, general business, and marketing) and secondary teacher education (with options including biology, English, math, and social studies). In 2015, SB 334 authorized Harris-Stowe to offer master’s degrees. Harris-Stowe currently offer master’s programs in education and curriculum instruction, cyber security management, and health administration.

Lincoln University

History

The institution known today as Lincoln University was founded in 1866 by African-American Civil War veterans as a technical school modeled after Booker T. Washington’s Tuskegee Institute. In 1890, Lincoln Institute became a land-grant institution. The school was renamed Lincoln University in 1921. In the fall of 1954, Lincoln University expanded its historical mission to serve a broader population of students with varied social, economic, educational, and cultural backgrounds. Today, Lincoln University is a historically black, comprehensive public institution that provides educational opportunities, including theoretical and applied learning experiences, to a diverse population.

Lincoln University is an open enrollment institution that offers eight undergraduate degrees in 50 programs of study. The university also offers non-credit and continuing education courses for students seeking personal and professional development.

Missouri Southern State University

History

Missouri Southern State University was founded in 1937 as Joplin Junior College, later known as Jasper County Junior College. Legislation in 1965 authorized the school to offer third- and fourth-year courses as Missouri Southern College. It was renamed Missouri Southern State College in 1972 and became part of Missouri’s public higher education system in 1977. The school became Missouri Southern State University in 2003.

Missouri Southern is a moderately selective institution and offers bachelor’s degrees in nearly 150 major areas including liberal arts, teacher education, business and technology, pre-medicine, pre-engineering, and other pre-professional programs. The university also offers associate degrees in dental hygiene, computer information science, law enforcement, radiological technology, drafting and design engineering technology, manufacturing engineering technology, and respiratory therapy.

Missouri State University

History

Missouri State University was founded as a normal school in 1905. The name of the institution has changed several times through the years – Southwest Missouri State Teachers College in 1919, Southwest Missouri State College in 1946, and Southwest Missouri State University in 1972. In 2005, the school was renamed Missouri State University, reflecting its enrollment growth as well as higher admissions standards and increased graduate programs.

Missouri State is a selective institution, offering more than 100 undergraduate majors and 50 graduate degree options. Six doctoral programs include a cooperative doctorate in educational leadership with the University of Missouri–Columbia, and a cooperative Doctor of Pharmacy program with the University of Missouri-Kansas City.

Missouri Western State University

History

Missouri Western State University was founded in 1915 as St. Joseph Junior College. It became a four-year institution in 1969 and a member of the Missouri's public higher education system in 1977. The institution's name was changed to Missouri Western State University in 2005.

Missouri Western is an open admissions institution and offers 119 undergraduate majors, 18 masters degrees, and five graduate certificates. Nearly 99 percent of Missouri Western graduates participate in an internship, undergraduate research, service learning, study away, or other applied learning experience.

University of Missouri-Kansas City

History

The University of Missouri-Kansas City’s roots run back to the 1880s. Three professional schools that are now a part of the university were founded in the nineteenth century: the School of Dentistry, 1881; the School of Pharmacy, 1895; and the School of Law, 1895. When the Conservatory of Music was founded in 1906, community leaders began discussing the need for a university in Kansas City. The campus was established in 1930 with first academic year beginning in 1933. In 1963, the University of Kansas City merged with the University of Missouri System, becoming the University of Missouri-Kansas City.

The selective institution offers extensive professional programs including a medical school, law school, and the state’s only dental school.

University of Missouri-St. Louis

History

The institution known today as UMSL started as the two-year Normandy Residence Center in 1960. The University of Missouri provided four full-time and eight part-time faculty. After three years of operation, the Normandy School District and University of Missouri reached an agreement for the university to purchase the property and assume operation of the center. In September 1963, the center became the University of Missouri-St. Louis.

The selective institution offers a variety of degree programs and operates the state’s only optometry program.

Missouri University of Science & Technology

History

The institution known today as Missouri University of Science & Technology was founded in 1870 as the University of Missouri School of Mines and Metallurgy. It was the first technological institution west of the Mississippi River and one of the first in the nation. Early academic programs focused on the mining and metallurgical industries, but the campus broadened its mission over time as the need for engineering and scientific education grew. The campus was renamed the University of Missouri–Rolla in 1964. In 2008, it became Missouri University of Science & Technology to more accurately reflect its mission as a technological research university.

Missouri S&T is a highly selective institution and offers bachelor's degrees in 30 fields of engineering, science, humanities, business, and social sciences. Master of science degrees are offered in 27 disciplines, Ph.D. in 21 disciplines, and doctor of engineering in nine disciplines.

Public Two-Year Colleges

Missouri has 12 community colleges, three of which – Metropolitan Community College, Ozarks Technical Community College, and St. Louis Community College – are multi-campus systems. Missouri also has a two-year campus of a public university (Missouri State University-West Plains), and one technical college (State Technical College of Missouri).

Community Colleges

The Missouri Community College Association (MCCA) represents community colleges in legislative and policy discussions with the legislature and members of the executive branch. It is governed by a Presidents/Chancellors Council and Brian Millner serves as the President and CEO of the association. The group elects a chair, who serves a one-year term. Dr. Jeff Lashley, president of Moberly Area Community College, is currently chair. Dr. Joanna Anderson, president of State Fair Community College, is vice chair.

Crowder College

History

In 1963, the citizens of Newton and McDonald counties voted to establish Crowder College, a public community college. In the fall of 1964, the college began operation in buildings formerly occupied by Camp Crowder, a facility built In 1941 as part of the buildup leading into World War II.

It is an open admissions institution and offers certificate and associate degree programs in career and technical education and general education.

Metropolitan Community College

History

The institution known today as Metropolitan Community College began as Kansas City Polytechnic Institute, established by the Board of Education in 1915 as the first public institution of higher education in Kansas City. The school officially changed its name to the Junior College of Kansas City in 1919.

In 1964, seven suburban school districts – Belton, Center, Grandview, Hickman Mills, Lee’s Summit, North Kansas City and Raytown – joined with the Kansas City School District to create the Metropolitan Community College District. That year, the College Board of Trustees was also elected to govern the district.

As Kansas City expanded into the suburbs in the 1960s, so did MCC, opening the Longview, Maple Woods, and Penn Valley campuses in 1969. Blue River Community College became the fourth campus in 1997, and the Business & Technology campus was added in 2002.

MCC is an open enrollment institution and offers certificate and degree programs in career and technical education and general education.

Missouri State University - West Plains

History

Then-Southwest Missouri State College (now Missouri State University) established a residence center in West Plains in 1963. The center received its first state funding for operating expenses in 1973. It became a campus in 1977 and received authority to award associate of arts degrees the same year. The campus’ nursing program was approved in 1982, and the campus’ athletic programs launched in 1992. Missouri State began offering bachelor’s and master’s degrees on the West Plains campus in 1998.

North Central Missouri College

History

North Central Missouri College, formerly Trenton Junior College, was founded in 1925 and is the second oldest publicly supported community college in Missouri. At its inception, it was part of a K-14 education system operated by a joint Board of Education/Board of Trustees and a school superintendent/college president.

For more than 40 years the college was located on the top floor of Trenton High School. Trenton Junior College officially became an independent entity by action of voters in 1986. In 1988, the college’s name was changed to North Central Missouri College to better reflect its mission to serve all the citizens in its assigned 16-county service region in northwest Missouri.

It is an open admissions institution and offers certificates and associate degrees in career and technical education and general education.

St. Charles Community College

History

Voters created Junior College District of St. Charles County in 1986, making it Missouri’s eleventh community college district. The name of the district was changed to St. Charles County Community College District in 1987.

Classes began in the summer of 1987 and the college operated out of several temporary locations for five years while continuing to plan for a permanent campus. In 1989, a 135-acre tract of land was chosen as the location for the college. The four-building campus was officially dedicated in January 1992.

The open admissions institution offers certificates and associate degree in career and technical education and general education.

St. Louis Community College

History

St. Louis Community College is the largest community college district in Missouri and has historically been one of the largest in the United States. It was established in 1962 when voters approved the creation of the Junior College District of St. Louis-St. Louis County. One year later, the Meramec and Florissant Valley campuses were constructed. In 1967, classes began in Forest Park. In 2006, the Wildwood Campus was established.

The open admissions college offers certificates and associate degrees in career and technical education and general education.

State Fair Community College

History

State Fair Community College was established in April 1966 when voters approved the creation of the Junior College District of Sedalia. In 1968, the college officially became State Fair Community College as a result of a “name the college” contest. Located on land west of the Missouri State Fairgrounds in Sedalia, State Fair Community College opened its doors in September 1968.

It is an open admissions institution and offers certificates and associate degrees in career and technical education and general education.

Faculty

State Technical College of Missouri

History

State Technical College of Missouri, founded in 1961, is Missouri’s only two-year public technical college with a statewide mission. Originating as Linn Technical Junior College, the college became a part of the public higher education system in Missouri in 1996 as a result of legislation.

The original educational institution was established with funding from the National Defense Education Act as a public postsecondary residential technical institution.

The institution offers more than 35 technical programs at the associate of applied science degree and certificate levels. In addition, customized and contract training is offered to Missouri businesses and industry.

Faculty

In 2011, the Department of Higher Education was directed to develop a formula to allocate future funding increases to higher education institutions according to their performance. The model was first implemented in 2012, and has undergone several revisions in response to stakeholder feedback. The model was codified in state statute in 2014, along with a new measure of graduate outcomes (primarily employment and continuing education).

For FY 2020, the MDHE, in consultation with institutional sectors, proposed that new funding be distributed based on performance on three workforce-related measures:

- **Public Universities:** completions per FTE student, pass rates on assessment or professional licensure exams, and graduate outcomes;

- **Community Colleges and MSU-West Plains:** three-year graduation and transfer rate, pass rates on professional licensure exams, and graduate outcomes;

- **State Technical College:** three-year graduation rate, major field assessment pass rate, and graduate outcomes.

The Coordinating Board for Higher Education certified performance funding results for all measures except graduate outcomes at its Dec. 12, 2018, meeting, and for graduate outcomes at its Jan. 22, 2019, teleconference.
